Description:

From Publishers Weekly Ultimately a testament to the powers of caring and commitment, this is the story of an traumatized eight-year-old who refused to speak due to sexual abuse and possible exposure to satanic rituals.

From School Library Journal YA-- Hayden's classroom of emotionally disturbed children consists of Reuben, a boy suffering from autism; Philip, born to an addict

mother and now in foster care; Jeremiah, a foul-mouthed fighter; and Jadie, a girl who never speaks and walks with such hunched posture that she appears to be doubled over. Through patience and determination, Hayden gains Jadie's confidence and gets her to speak, but with her conversation come tales of sexual abuse and ritual acts too horrifying to believe. When Hayden goes to the authorities, the community is reluctant to accept the possibility that Jadie is telling the truth. There are three explanations for her macabre and graphic disclosures: she is either a psychotic child beyond help, a victim of satanic rituals, or she has been used, along with her sisters, to make pornographic films. The conclusion is frustrating because readers never learn which of the three speculations is the truth. Hayden does tell us that today Jadie is a happy and functioning adult and that is some comfort. --Katherine Fitch, Thomas Jefferson Sci-Tech, Fairfax County, VA

The teacher's desk had been pushed in at one end of the cloakroom, and this idea impressed me. I'd never known what to do with a desk I could rarely sit at, and this seemed a nice solution to keeping it out of the way, yet accessible. Pulling open one of the bottom drawers, I dropped my sack lunch into it.Â I knew immediately who this was" Jade Ekdahl - simply because she was the only girl in the class. What had caught my eye immediately in reading Jade's file was the fact that she was an elective mute.Â She had been retained an extra year in kindergarten in hopes that time might help her overcome her speaking difficulties, but nothing had changed. She'd been promoted on to first grade, where she seemed competent enough at her schoolwork, but she was dismally isolated.

Details Torey's story of reconnecting with her, her horror at discovering that no one in social services had tracked Sheila or advocated for her, and her efforts to put some of the pieces back together for this 'one child' are marinated in the sad twists of real life. In another of Torey's books, "Just Another Kid", Geraldine, a little girl from Belfast, Ireland, is so severely damaged by the violence in the community and in her family that she pretty much ends up institutionalized for life.
