Description:

From Publishers Weekly As one might expect from someone with Albright's resume, the former Secretary of State speaks clearly, makes her points succinctly and doesn't stray into speculation, fancy or whimsy. She begins with her childhood in an intellectual Czechoslovakian family and moves fairly quickly through her education, courtship, marriage and motherhood before arriving at what can be considered the guts of the story-her impressive period of service as U.S. ambassador to the United Nations and, eventually, as Secretary of State. Her no-nonsense tone is a perfect match for the material, her voice at once serious and warmly maternal. There are a few times when emotion seeps into her voice: when discussing her heated run-ins with Colin Powell or when relating details of the Kenyan embassy bombings and mass graves in Bosnia. An early passage in which she tells of the poor health of her twin babies and how she didn't want to name them until she knew they would survive is particularly moving. Such moments are necessarily rare in a memoir of this nature, but

they help paint a well-rounded picture of this remarkable lady.

From This memoir by America's first female Secretary of State is a deeply conventional book, full of long accounts of negotiations and reflections on the proper uses of American power. Albright is not out to settle scores (her criticisms of colleagues are mild at worst) and seems, on balance, pleased with the foreign-policy record of the Clinton Administration. This might have made a dull book, were it not for Albright's appealing character—personally ingenuous but professionally sophisticated, earnest but hard-nosed. Her eye for details—clothing, food, travel conditions—helps bring the diplomat's world to life, and her portraits of foreign leaders are lively and evocative. The result is a book that creates a sense of policy made by real people, not by world-bestridding titans.
