

Global Restructuring and Territorial Development

By Jeffrey Henderson, Manuel Castells

SAGE Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Global Restructuring and Territorial Development, Jeffrey Henderson, Manuel Castells, The essays in this book provide the elements for a new theory of spatial development to explain the new socio-territorial reality produced by global restructuring in the 1970s and 1980s. The contributors all account for the contemporary territorial units by focusing on global economic dynamics and the history of particular places. The book looks at restructuring in the automobile and electronics industries; the significance of migrant labour and the informal economy; the consequences of female proletarianization in Southeast Asia; the implications for regional development of the incorporation of Mexico and Malaysia in the world economy; the internationalization of commercial capital and the development of financial centres; and, the connection between global restructuring and urban politics in the United States.

The 17 Sustainable Development Goals (SDGs) set the global agenda for the coming decade to end poverty, protect the planet and ensure prosperity for all. A Territorial Approach to the Sustainable Development Goals argues that cities and regions play a critical role in this paradigm shift and need to embrace the full potential of the SDGs as a policy tool to improve people's lives. The report estimates that at least 105 of the 169 SDG targets will not be reached without proper engagement of sub-national governments. It analyses how cities and regions are increasingly using the SDGs to design an Start by marking "Global Restructuring and Territorial Development" as Want to Read: Want to Read saving! Want to Read.
