The Ottoman army was the military structure established by Mehmed II, during his reorganization of the state and the military. This was the major reorganization following Orhan I's standing army paid by salary rather than booty or fiefs. This army was the force during the rise of the Ottoman Empire. The organization was twofold, central (Kapıkulu) and peripheral (Eyalet). This army was forced to disband by Sultan Mahmud II on 15 June 1826 by what is known as the Auspicious Incident following a century. The Ottoman Empire began in 1300 under the almost legendary Osman I, reached its apogee in the sixteenth century under Suleiman the Magnificent, whose forces threatened the gates of Vienna, and gradually diminished thereafter until Mehmed VI was sent into exile by Mustafa Kemal (Ataturk). In this definitive history of the Ottoman Empire, Lord Kinross, painstaking historian and superb writer, never loses sight of the larger issues, economic, political, and social.
