Imbalance of Powers: Congress, the President and the Constitution after 9/11

Gordon Silverstein

Assistant professor of political science, University of California—Berkeley

**Wednesday, 18 October
NOON
238 HRCB**

At Berkeley, Gordon Silverstein teaches courses in constitutional law, civil liberties, comparative constitutionalism, and the separation of powers. Before joining Berkeley's faculty, Silverstein held faculty positions in political science, law, and administrative science at Rice University, Dartmouth College, the University of Minnesota, and Lewis & Clark College. In addition, he served as a program director for the nonprofit, nonpartisan New America Foundation in Washington, D.C. The author of *Imbalance of Powers: Constitutional Interpretation and the Making of American Foreign Policy* (1997), he is working on a new book titled *How Law Kills Politics*. Following his undergraduate education at Cornell University, where he served as editor-in-chief of the *Cornell Daily Sun*, Silverstein worked as a journalist for the *Wall Street Journal* in New York and Hong Kong and the *San Francisco Chronicle* before receiving a PhD from Harvard University.

Power imbalances in the economy are embedded in the operation of global markets and in the ownership and governance of international institutions. Hence, the institutions of international development become sites of interaction of North-South relations in certain matters concerning trade, finance and technology. Here power imbalances are manifested, mediated and sometimes renegotiated. Imbalance of Power. Management has usurped control from boards and the directors themselves are to blame. by William W. George was the CEO of Medtronic, a Minneapolis-based medical technology company, from 1991 to 2001. He was the chairman of the Medtronic board from 1996 to May of this year. He has served on the boards of nine for-profit and two dozen nonprofit organizations. Power Imbalance: So What! My guess is you are reading this article because of the title. And about now you are hoping I did not use an attractive title to lure you into an article about some sad story about power abuse I suffered in graduate school or something. Life isn't fair. A lot of people suffer. Suffering the misuse of power does not create a position of privilege. Get over it! You are right. And that is why this is not a power imbalance story about one of my grad school experiences. But wait a minute. How to deal with power imbalances. All of us are involved in difficult situations at some times in our lives. This can occur in the counselling situation, but it can also occur in our daily lives. When difficult situations occur, it can be useful to make use of counselling skills to help us in that situation. Many people feel uncomfortable in difficult situations, they may not like displays of aggression, feeling that they are in the middle of an argument and so on. Imbalance of Power. India's Military Choices in an Era of Strategic Competition with China. By Daniel Kliman, Iskander Rehman, Kristine Lee and Joshua Fitt. Print. Executive Summary. The United States has made a strategic bet: that India will decisively shape the military balance in Asia.¹ In an era of avowed great power competition with China,² at a time when the U.S. military's edge over the People's Liberation Army (PLA) continues to erode,³ this wager will have an outsized impact on the future trajectory of the region.
