Long Day's Journey into Night. by. Eugene O'Neill. Jonathan Cape. Thirty Bedford Square, London. First published in Great Britain June 1 1956 reprinted 1956, 1958, 1962. Sunshine comes through the windows at night. As the curtain rises, the family have just finished breakfast Mary Tyrone and her husband enter together from the back parlour, coming from the dining-room. Mary is fifty-four, about medium height She still has a young, graceful figure, a trifle plump, but showing little evidence of middle-aged waist and hips, although she is not tightly corseted Her face is distinctly Irish in type. London at night has always been seen as a lawless orgy of depravity and pestilence. But is it now as bland and unthreatening as any new town? Sukhdev Sandhu journeys across the city to find out whether the London night really has been rendered neutral by street lighting and CCTV cameras. His nocturnal forays see him prospecting in the London night with the people who drive its pulse, from the avian police to security guards, urban fox hunters and exorcists. He wades through the sewers, hangs out with pirate DJs, and accompanies the marine patrol looking for midnight corpses. Beautifully written

A Nighthaunt can glide without pause straight through a wall as a man might stride unimpeded through light fog. Unless guided by supreme faith, enemy blades and arrows pass harmlessly through the Nighthaunts' incorporeal forms.[1a]. Only those that can steel their minds and drive out their deepest fears can stand against such supernatural horrors. Many foes flee at the first sight of a Nighthaunt procession. Others hold their ground for a time, but it does not take long before senses sharpened by fear begin to make out sinuous shapes moving in the thickening fog. Panicking defenders leap at every new swirl and they are right to. Her betrothal to the future king ended on the very night when the prince and his father, the high king, disappeared.

Whatever happened to the London night? London at night has always been seen as a lawless orgy of depravity and pestilence. But has it become as bland and unthreatening as any new town? A collaboration between Sukhdev Sandhu, website designer Ian Budden and sound artist and musician Scanner, Night Haunts unfolded in monthly episodes on a specially designed website nighthaunts.org.uk. The website's visual and sonic textures are in constant flux; they are randomly triggered so that each experience of the site is unique. What are the invisible economies that pulse through the sleeping city? Does the Thames change its character at dusk? Is authentic darkness impossible? Do we need darkness? Samaritans hear the city's misery through sobs and silence down a phone; "flushers" wade through sewers underground, through litres of discarded fat; the nuns of Tyburn hear the voice of God "in, from and out of" the silence and the darkness. In a vivid series of vignettes, Sandhu traverses the capital, inspired by HV Morton's 1926 *The Nights of London*. But where Morton saw a trove of treasure, Sandhu hears voices crying in the dark: "Prayer is the true language of the night".
