For Principles of Microeconomics courses at two- and four-year colleges and universities

A practice-oriented learning system that breaks the traditional textbook mold

To help students focus on the most important concepts—and effectively practice application of those concepts—*Foundations of Microeconomics* is structured around a Checklist/Checkpoint system. The result is a patient, confidence-building program that prepares students to use economics in their everyday lives, regardless of what their future career will be.

¿

This program provides a better teaching and learning experience—for you and your students. It will help you to:

- **Personalize learning with MyEconLab:** This online homework, tutorial, and assessment program engages students in learning and provides instructors tools to keep students on track.
- **Encourage students to learn by doing:** A Checklist/Checkpoint system provides a practice-oriented framework that enables active learning.
- **Command student attention and foster interest in the course:** Engaging features draw students into the material, and keep them focused throughout the course.
- **Provide engaging, fully updated content:** New and updated material on contemporary topics better motivates students to discover the economic way of thinking.
