War and Anti-War: Survival at the Dawn of the 21st Century

By Toffler, Alvin; Toffler, Heidi

Little Brown & Co, Boston, Massachusetts, U.S.A., 1993. Hardcover. Book Condition: New. Dust Jacket Condition: New. 1st Edition. From Kirkus Reviews: An appraisal of armed conflict that will strike most readers as a typically slick Alvin Toffler production--despite the byline given to wife Heidi and the bulletin that Alvin wrote Future Shock, The Third Wave, and other bestsellers with her help. Here, the authors offer a quickstep guide to warfare in the idiosyncratic context of their wave theory--which, broadly speaking, divides world history into agrarian, industrial, and technological eras. Starting with the hand-to-hand combat of ancient times, they eventually get to WW II's high-explosive and nuclear horrors. Desert Storm, the Tofflers argue, was a showcase for a new generation of intelligent armament (smart bombs and the like) that promises to minimize if not eliminate the importance of brute-force firepower and set-piece battles. Among other examples, the authors cite the possibility of microrobots able to invade an adversary's headquarters, programmable ordnance, and sonic systems that could disable enemy troops without killing them. In the meantime, the Tofflers warn, the breakup of the USSR hasn't made a peaceable kingdom of the Global Village. Indeed, they assert, more rather than fewer brushfire wars...

When applied to the topic of war, the result is a book that contains any number of inaccurate or sloppy generalizations (an F-117 with one bomb can supposedly do what it took 4,500 B-17s to do in World War II) about war's past and present and probably, therefore, about its future. U.S. soldiers in remarkably large numbers, however, are reading the book, which suggests two things: first, military people sense that some large change is afoot; second, the usual constellation of defense analysts has not yet characterized it very well.
