presents:

It Looked Like Spilt Milk by Charles G. Shaw

It Looked Like Spilt Milk is a great book to read to children. This classic book has a pattern, which children can easily recognize. Sometimes it looked like a _____, but it wasn't a _____. This pattern is repeated throughout the book as the pictures change from one to the next. Encourage your child to repeat the phrase with you and to add what the picture is.

Talk to your child about the clouds in the sky and how they can look like different things. Take time to sit outside with your child on a cloudy day and talk about what the different clouds look like.

Add some new words to your child's vocabulary. Talk to your child about the different types of clouds. The big white puffy clouds (**Cumulus**), are white, and they are always changing their shapes. Rain clouds (**Nimbostratus**) cover the sky and are darkened by the water they hold. When they get too heavy with water, the water falls out of the cloud and we have rain. Talk about the different types of **precipitation** that comes from clouds: rain, snow, sleet, hail.

The gray and foggy clouds
Are **stratus** low in the sky

The dark and stormy clouds
Watch out for **nimbus** rain
Hi-ho-a-cloud-e-oh
The dark and stormy clouds.

WHEN I SEE CLOUDS IN THE SKY

(My Bonnie Lies Over the Ocean)

When I see clouds in the sky,
All big and puffy and white,
When I see clouds in the sky,
The weather is sunny and bright.

White clouds, white clouds,
White clouds up in the sky.
White clouds, white clouds,
White clouds, puffy and dry.

When I see clouds in the sky,
All big and solid and gray,
When I see gray clouds in the sky,
The weather is rainy all day.

Gray clouds, gray clouds,
Gray clouds up in the sky.
Gray clouds, gray clouds,
Dropping rain from up high.
