There's no easier, faster, or more practical way to learn the really tough subjects SQL Demystified explains how to use SQL (Structured Query Language)â€”the ubiquitous programming language for databases. Readers will learn to create database objects, add and retrieve data from a database, and modify existing data. SQL Profile demystified : part â€” I. In this post and the next one, I will discuss about SQL Profiles â€” what is their purpose, how to create and use them , how are they stored etc. Purpose of SQL profile : It is DBAâ€™s responsibility to maintain SQL performance despite various changes which affect the optimizer. The changes could be change in optimizer statistics, schema changes (creation of index), change in the size of table etc. A DBA should be able to influence the optimizer to use the most efficient plan.
