Preface The American Academy of Pediatrics (AAP) Red BookÂ® Atlas of Pediatric Infectious Diseases, 4th Edition, is a summary of key disease information from the AAP Red BookÂ®: 2018â€“2021 Report of the Committee on Infectious Diseases. It is intended to be a study guide for students, residents, and practicing physicians. The images of common and unusual features of children with infectious diseases can provide diagnostic clues not found in the print version of Red Book. The juxtaposition of these images against text summarizing the clinical manifestations, epidemiology, diagnostic methods, and t Every effort is made to keep Red Book Â® Atlas of Pediatric Infectious Diseases consistent with the most recent advice and information available from the American Academy of Pediatrics. Special discounts are available for bulk purchases of this publication. E-mail our Special Sales Department at aapsales@aap.org for more information.Â The visual representations of common and atypical clinical manifestations of infectious diseases provide diagnostic information not found in the print version of the Red Book. The juxtaposition of these visuals with a summary of the clinical features, epidemiology, diagnostic methods, and treatment information hopefully will serve as a training tool and a quick reference. The fast-developing field of infectious diseases requires regular reevaluation, and timely updates of both the AAP Red Book and this companion atlas. There is simply no other book like it in the field, and it is invaluable to pediatric practitioners." Madan Kumar, D.O. University of Chicago Pritzker School of Medicine Doody's Book ReviewTM.Â The AAP is the largest pediatric publisher in the world, with a diverse list of resources that includes essential clinical and practice management titles and award-winning books for parents. Carol J. Baker, MD, FAAP, is executive director of the Center for Vaccine Awareness and Research at Texas Children's Hospital and professor of pediatrics and of molecular virology and microbiology at Baylor College of Medicine in Houston, TX. Introduction The American Academy of Pediatrics (AAP) Red BookÂ® Atlas of Pediatric Infectious Diseases, 2nd Edition, is a summary of key disease information from the AAP Red BookÂ®: 2012 Report of the Committee on Infectious Diseases. It is intended to be a study guide for students, residents, and Âpractitioners. Visual representations of common and atypical clinical manifestations of infectious Âdiseases provide diagnostic information not found in the print version of the Red Book. The Âjuxtaposition of these visuals with a summary of the clinical features, epidemiology, diagnostic methods, an
