NASA. The United Nations suggests that climate change is not just the defining issue of our time, but we are also at a defining moment in history. Switch to filtered tap water. You'll save a ton of cash and help reduce a ton of plastic waste in the process. 2. Be Car-conscious. If you can, stay off the road two days a week or more. You'll reduce greenhouse gas emissions by an average of 1,590 pounds (721 kilograms) per year [source: EPA]. It's easier than you think. You can combine your errands hit the school, grocery store and dog daycare in one trip. Earth is our planet, and our life is going on smoothly due to other creatures on it. This is the reason why the earth needs to be protected. But instead of keeping the earth safe, we humans are doing harm to it. Forest, natural wildlife and trees are being cut for infrastructural purposes. The rainfall is also less because of less trees due to which the land is getting dried and not suitable for cultivation. And due to lack of forest, global warming is also increasing a lot. There are technologies invented to save the earth which are given in this video. Related Questions. More Answers Below. Do you want to do what you can to save it? With bad news about global warming, dying oceans, and endangered animals flooding us on a daily basis, it's hard to know where to start. It may seem like the actions of one person won't make a difference, but there are actually many ways you can help. Work to have safe paths built in your city. Contact your local representatives to speak up about issues particular to your region. If there's a factory spewing pollutants into the air, for example, get politically active to put a stop to it.
