Description:

About the Author Ralph Mayer (1895-1979) was a painter and art conservator. Educated as a chemical engineer, he worked in paint manufacture and studied painting at the Art Students League of New York before going on to teach at Columbia University. He founded the Artists Technical Research Institute in 1959. He is best known as the author of The Artist's Handbook of Materials and Techniques (1940),

which is still a point of reference for artists today, and he also wrote *The Painter's Craft* (1948) and *A Dictionary of Art Terms and Techniques* (1969). --This text refers to an out of print or unavailable edition of this title.

The Artist's Handbook of Materials and Techniques is a reference book by Ralph Mayer (1895–1979). Intended by the author for use by professional artists, it deals mostly with the chemical and physical properties of traditional painterly materials such as oil, tempera, and encaustic, as well as solvents, varnishes, and painting mediums. It also has extensive coverage of ancillary activities such as stretching and preparing canvas, care and maintenance of tools, and conservation of older paintings.
